

Curriculum Vitae

Frederick Grant Duerr, Ph.D.

Education:

- Bachelor of Arts (BA) Zoology and Chemistry, University of Minnesota, Mpls 1956
- Doctor of Philosophy (Ph.D.) Zoology, Botany, University of Minnesota, Mpls. 1965
(Grover C. Stephens, major advisor)
- University of Oregon, Introduction to Oceanography and Marine Wildlife.
Oregon Institute of Marine Biology (OIMB). Coos Bay, OR. 1964
- Post-Doctorate studies in radioisotopes technology, Oak Ridge Natl. Lab 1962

Academic Employment History:

- Part-time Instructor of Science, Oregon Coast Community College 001 – 2009
Newport, Oregon. Taught Chemistry, Microbiology,
Anatomy & Physiology.
- Part-time Instructor of Science, Walla Walla Community College 1993 – 2001
Walla Walla, Washington. Taught Physics and Chemistry.
- Adj. Professor , National University, San Diego, California 1984 – 1989
Taught Environmental Science.
- Assoc. Professor Biology, Univ. North Dakota, Grand Forks, ND 1969 – 1984
(tenured)
- Assoc. Professor Biology, Univ. Saskatchewan, Regina, Sask. 1968 – 1969
(tenured)
- Assoc. Professor Zoology, Univ. South Dakota, Vermillion, SD 1961 – 1968
(tenured)
- Part Time Instructor Biology, Hamline University,
St. Paul, MN 1959 – 1961
- NIH Research Fellow, University of Minnesota, Minneapolis, MH 1957 –1959
- Teaching Assistant, Dept. Zoology, University of Minnesota,
Minneapolis, MN 1955 -1957

Related Experience:

Volunteer: Oregon Coast Aquarium

Employee: (Aquatic Biologist I) Minnesota Department of Natural Resources. I was temporary director of the State of Minnesota's Aquatic Nuisance Control Program.

Member: Water Quality Board, City of Regina, Sask.

Member: U.S. Bureau of Mines, Grand Forks, ND Task Force evaluating water quality in Old Strip Mined Ponds in Western North Dakota.

Member: NOAA study to determine sources of pollution in the Sheyenne Watershed, North Dakota and test control methods.

Member: FWS study to evaluate water quality in several lakes in the Turtle Mountains of North Dakota.

Consultant: U.S. Forest Service with regard to Blue Mountain and Wallowa Mountain (Oregon and Washington) aquatic matters.

Lecturer for Oregon State University Hatfield Marine Science Center.

I have published or instrumental in publishing over two dozen scientific papers
